SKILLS

CURRENT WORK EXPERIENCE

SOFTWARE DEVELOPER, EL PAIS S.A

Jun 2019 - Act

- Requirements Analysis.
- Database Design and Implementation.
- Continuous integration with GIT version control.
- Full Stack Development with Symfony, PHP and JavaScript.

SOFTWARE DEVELOPER, DELTEC S.A

Oct 2016 - Jun 2019

- Requirements Analysis.
- Database Design and Implementation.
- Continuous integration with GIT, Jenkins and SonarQube.
- Full Stack Development with Python, Django, Django REST Framework, Angular and Ionic.

OTHER SKILLS

- Databases: PostgreSQL, MySQL
- O.S: Linux, Windows, Mac OS
- Continuous integration: GitLab, Jenkins and SonarQube

EDUCATION

- Systems technology, Antonio José Camacho University Institution, Cali - Colombia. (2013-2017) Graduated
- Systems engineering, Antonio José Camacho University Institution, Cali - Colombia. (2018 - Actualidad)

PERSONAL INTERESTS

- Mobile development (ionic, React Native or Xamarin).
- Frontend development (Angular, React or VueJS)
- Backend development (Python, Django Rest Framework)
- Machine learning.
- Data mining

ABOUT ME

Systems Technologist graduated from the Antonio José Camacho University Institution, passionate about software development and learning new technologies.

I have experience in all stages of web application development: requirements, design, implementation, testing and support. Solid knowledge in Python, PHP and object oriented programming. Good database management (PostgreSQL), web services (REST API), basic web technologies (Javascript, HTML, CSS) and frameworks such as Django and Angular. Familiarity with Linux environments (Ubuntu, UbuntuServer, Suse), agile development methodologies (Scrum) and continuous integration with the control of GIT, Jenkins and SonarQube versions.

I have an intermediate level of English and I am characterized by my responsibility, discipline, enthusiasm and teamwork. I am proactive and I like to learn new technologies or development languages.
